alpha-N-acetylneutraminate alpha-2,8-sialyltransferase (EC 2.4.99.8) - rat
N.Alternate names: GD3 synthase
C;Species: Rattus norvegicus (Norway rat)
C;Date: 20-Feb-1997 #sequence_revision 27-Feb-1997 #text_change 20-Jun-2000
C;Accession: JC5195
R;Watanabe, Y; Nara, K.; Takahashi, H.; Nagai, Y.; Sanai, Y.
J. Blochem: 120, 1020-1027, 1996
A;Title: The molecular cloning and expression of alpha2,8-sialyltransferase (GD3 synt A;Reference number: JC5195; MUID:97137534
                                                                                                                                                                                                                                                                                                                                                        A Accession: UC5195
A; Status: preliminary
A; Status: preliminary
A; Molecule type: mRNA
A; Residues: 1-342 (WAT>

Gal beta 1,3GalNAc alpha 2,3-sialyltransferase - pig

Gal beta 1,3GalNAc alpha 2,3-sialyltransferase - pig

C;Species: Sus scrofa domestica (domestic pig)

C;Date: 10-Jun-1993 #sequence_revision 18-Nov-1994 #text_change 13-Sep-1998

C;Accession: A45073

R;Gillesple, W.; Kelm, S.; Paulson, J.C.

J. Biol. Chem. 267, 21004-21010, 1992

A;Title: Cloning and expression of the Gal beta 1, 3GalNAc alpha 2,3-sialyltransferas

A;Reference number: A45073; MUID:93016016

A;Retaus: preliminary

A;Nolecule type: mRNA; protein

A;Residues: 1-343 <GLL>
A;Residues: 1-343 <GLL>
A;Note: sequence extracted from NCBI backbone (NCBIN:116168)

Deta-galactoside alpha-2,6-sialyltransferase (EC 2.4.99.1) - rat

N;Alternate names: CMP-N-acetylneutraminate-alpha-N-acetyl-galactosamide-alpha-2,6-s1
C;Species: Rattus norvegicus (Norway rat)
C;Date: 19-May-1989 #sequence_revision 19-May-1989 #text_change 24-Sep-1999
C;Accession: A28451; A34465
R;Weinstein, J.; Lee, E.U.; McEntee, K.; Lai, P.H.; Paulson, J.C.
A;Title: Primary structure of beta-galactoside alpha-2,6-sialyltransferase. Conversion
A;Reference number: A28451; MuID:88087067
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            A; Molecule type: mRNA
